I am passionate about coding for over 10+ years of my working experience and participating in the software development which includes technical design, coding, CI/CD, integration test and support of production issues.

I enjoy to learn new programing languages to grow and enhance my technical abilities.

IT Specialist | MIMO Tech Company Limited (Subsidiary of AIS Public Company Limited)
Mar 2019 - Sep 2020
- Gathering requirement from customers
- Estimate the impact of business change
- Analyze business model to design database
- Design and coding backend API with Spring and Hibernate
- Guide and review code for junior-senior developer
- Support, investigate and solve production issues

Senior Programmer Analyst | MIMO Tech Company Limited (Subsidiary of AIS Public Company Limited)
Mar 2015 - Feb 2019
- Design database
- Coding web application with JSF, Spring and Hibernate
- Code review for develop team
- Investigate and solve production issues

Software Engineer | Gosoft (Thailand) Company Limited (Subsidiary of CP ALL Public Company Limited)
Mar 2014 - Feb 2015
- Gathering requirement from customers
- Analyze and design system flow and work processes
- Coding with Java in Agile software development
- Debugging and maintaining System

Programmer | Samart Corporation Public Company
Oct 2013 - Feb 2014
- Coding web application with Javascript
- Debugging and maintaining software

Software Engineer | The Ultimate Soft Company Limited
Apr 2011 - Sep 2013
- Design database
- Coding web application with JSP, JSF and EJB
- Debugging and maintaining system

PROJECT HANDLE

- Wealth PLUS on K+ Application
- Digital Trading System (Support for AIS Shop, Telewiz and Partner)
- Trading Management System (Support for AIS Shop, Telewiz and Partner)
- Retail Master Ordering System (Support for 7-Eleven)
- Web Analytics Report for LawDD Website
- NxAdmin for LawDD Website
- NxDM Virtual Library
  Administrator Management for Chulalongkorn University
